

Fluidigm Announces First Quarter 2019 Financial Results

May 2, 2019

First quarter revenue increased 19 percent to \$30.1 million

Mass cytometry revenue growth of 110 percent in first quarter

Strong mass cytometry and Imaging Mass Cytometry instrument adoption

First complete sample-to-answer solution for deep immune profiling in mass cytometry

SOUTH SAN FRANCISCO, Calif., May 02, 2019 (GLOBE NEWSWIRE) -- Fluidigm Corporation (NASDAQ:FLDM) today announced financial results for the first quarter ended March 31, 2019.

Financial Highlights

First Quarter 2019

- Total revenue increased 19 percent to \$30.1 million from \$25.2 million in the first quarter of 2018, with mass cytometry revenue growth of 110 percent compared to the year ago period.
- GAAP net loss was \$25.5 million, compared with a GAAP net loss of \$13.2 million for the first quarter of 2018. GAAP net loss was higher in the first quarter of 2019 primarily due to a loss of \$9.0 million associated with extinguishment of \$150 million principal value of convertible debt, as well as higher employee-related and business development expenses.
- Non-GAAP net loss was \$8.2 million, compared with a \$6.3 million non-GAAP net loss for the first quarter of 2018.

"Demand for Helios™ and Hyperion™ Imaging Systems was exceptional. In addition, the quarter featured new product innovation and movement to a stronger balance sheet," said Chris Linthwaite, President and CEO.

"This quarter, most of our instrument placements were to new customers. We believe this may signal an expanding market opportunity as interest in spatial relationships in the tumor microenvironment stimulates new research in immuno-oncology. We have seen growth of this type of research in Imaging Mass Cytometry™ globally, including, notably over the last couple of quarters, in Japan. For example, today we announced that a leading cancer center in Japan adopted the Hyperion Imaging System to explore novel immunotherapy targets in colorectal cancer. As instrument adoption grows, expanding content and workflow solutions remains the bedrock of our customer-oriented strategy. In March, we launched the Maxpar® Direct™ Immune Profiling Assay, empowering pushbutton characterization of key elements of the human immune response with mass cytometry. For microfluidics, we recently introduced customers to two exciting Advanta™ oncology assays in development that we expect to launch by the end of the second quarter. We anticipate additional product announcements soon," added Linthwaite.

"Since the beginning of the year, we have strengthened our balance sheet with the conversion of our 2018 notes. We have a solid financial foundation to accelerate growth through a multi-omics strategy providing customers with tools to drive new insights in health and disease, identify meaningful biomarkers and accelerate therapeutic development."

A full reconciliation of GAAP to non-GAAP measures can be found in the tables of this news release.

First Quarter 2019 Results

Revenue by category:

Category	Revenue by Category	Year-over-Year Change	% of Total Revenue
Instruments	\$12.8 million	71%	43%
Consumables	\$12.0 million	(7%)	40%
Service	\$5.3 million	11%	17%

Revenue by market:

- Mass cytometry revenue increased 110 percent to \$18.8 million from \$9.0 million in the prior year period. Mass cytometry product revenue increased 134 percent to \$15.5 million from \$6.6 million in the prior year due to higher sales of instruments and consumables.
- Microfluidics revenue decreased 30 percent to \$11.4 million from \$16.3 million in the prior year period. Microfluidics product

revenue decreased 32 percent to \$9.4 million from \$13.9 million in the prior year period due to lower sales of instruments and consumables.

Total revenue by geographic area:

Geographic Area	Revenue by Geography	Year-over-Year Change	% of Total Revenue
Americas	\$13.0 million	20%	43%
EMEA	\$8.1 million	(4%)	27%
Asia Pacific	\$9.0 million	51%	30%

Gross margin:

GAAP gross margin was 56.4 percent in the first quarter of 2019 compared to 53.2 percent in the year ago period and 58.2 percent in the fourth quarter of 2018. Non-GAAP gross margin was 67.7 percent in the first quarter of 2019 compared to 67.1 percent in the year ago period and 69.3 percent in the fourth quarter of 2018. The year-over-year increase in gross margin was primarily due to higher plant utilization and to a lesser extent, higher service margins, offset by product mix. Sequentially, decreases in gross margins were primarily due to lower plant utilization and lower service margins. In the case of GAAP margin, the year-over-year increase was coupled with fixed amortization over higher revenue while the sequential decrease in gross margin was coupled with fixed amortization over lower revenue.

Cash, cash equivalents, and investments as of March 31, 2019:

Cash, cash equivalents, and investments as of March 31, 2019, were \$75.1 million. Cash, cash equivalents, and investments as of December 31, 2018, were \$95.4 million.

Convertible notes

Convertible debt decreased to \$49.8 million, primarily due to the extinguishment of \$150 million principal value of convertible promissory notes in the first quarter of 2019. As a result, the ongoing semi-annual interest payment associated with the convertible promissory notes remaining outstanding will be approximately \$0.7 million, payable in the first and third quarters of the year.

Operational and Business Progress

New product innovation:

- Fluidigm introduced the Maxpar Direct Immune Profiling Assay, the first complete sample-to-answer solution for deep immune profiling by mass cytometry. The assay contains a 30-marker antibody panel to profile 37 different immune cell populations in a single tube with results reporting in just five minutes. The assay provides flexibility for researchers to add up to seven new antibodies to the panel to support study-specific goals and is reliable producing consistent results lot-to-lot, run-to-run and site-to-site.

Market expansion:

- A leading cancer center in Japan is expanding clinical research using the Hyperion Imaging System to explore a novel target for immunotherapy in colorectal cancer by studying regulatory T (Treg) cell proliferation in tumor tissues.

Significant publications:

- There are now more than 700 peer-reviewed publications for mass cytometry with more than 20 in Imaging Mass Cytometry, further establishing mass cytometry leadership in the market. This quarter notable publications relating to immuno-oncology and immunology clinical research included:
 - A *Cell* paper describing the creation of a single-cell proteomic atlas of the tumor and immune ecosystem of human breast cancer.
 - A *Clinical Cancer Research* paper describing a unique observation obtained through Imaging Mass Cytometry regarding the proximity of certain types of T cells as a function of expression of HER2, a protein linked to increased breast cancer risk.
 - A *Nature Medicine* paper that details use of mass cytometry to identify and characterize certain types of T cells that are reactive in celiac disease and could be a key driver in other autoimmune diseases.
 - A *Nature Medicine* paper used mass cytometry as part of their research to support a novel approach to using a vaccine to make cancer treatment more successful for indolent non-Hodgkin's lymphoma patients.

Second Quarter 2019 Guidance

- Total revenue of \$28 million to \$31 million.
- GAAP operating expenses of \$29.5 million to \$30.5 million.
- Non-GAAP operating expenses of \$25.5 million to \$26.5 million excluding stock-based compensation, including severance and depreciation and amortization expenses of approximately \$3 million and \$1 million, respectively.
- Total cash outflow of \$4 million to \$6 million.

Conference Call Information

Fluidigm will host a conference call today, May 2, 2019, at 2:00 p.m. PT (5:00 p.m. ET) to discuss first quarter 2019 financial results and operational progress. Individuals interested in listening to the conference call may do so by dialing (877) 556-5248 for domestic callers, or (720) 545-0029 for international callers. Please reference Conference ID 7077607. A live webcast of the conference call will be available online from the Investor Relations page of the company's website at <http://investors.fluidigm.com/events.cfm>. The link will not be active until 1:45 p.m. PT (4:45 p.m. ET) on May 2, 2019.

After the live webcast, the call will be archived on the Fluidigm Investor Relations page at <http://investors.fluidigm.com/>. In addition, a telephone replay of the teleconference will be available 90 minutes after the end of the call. The replay dial-in numbers are (855) 859-2056 for domestic callers and (404) 537-3406 for international callers. Please use the conference ID number: 7077607. The telephone replay will be available until May 9.

Statement Regarding Use of Non-GAAP Financial Information

Fluidigm has presented certain financial information in accordance with U.S. GAAP and also on a non-GAAP basis for the three-month periods ended March 31, 2019, and March 31, 2018, as well as projected for the second quarter of 2019. Management believes that non-GAAP financial measures, taken in conjunction with GAAP financial measures, provide useful information for both management and investors by excluding certain non-cash and other expenses that are not indicative of the company's core operating results. Management uses non-GAAP measures to compare the company's performance relative to forecasts and strategic plans and to benchmark the company's performance externally against competitors. Our estimates of forward-looking non-GAAP operating expenses exclude estimates for stock-based compensation expense and depreciation and amortization; loss on disposal of property and equipment; future changes relating to developed and acquired technologies; other intangible assets; and income taxes, among other items, certain of which are presented in the tables accompanying our earnings release. The time and amount of certain material items needed to estimate non-GAAP financial measures are inherently unpredictable or outside of our control. Material changes to any of these items could have a significant effect on guidance and future GAAP results. Non-GAAP information is not prepared under a comprehensive set of accounting rules and should only be used to supplement an understanding of the company's operating results as reported under U.S. GAAP. Fluidigm encourages investors to carefully consider its results under GAAP, as well as its supplemental non-GAAP information and the reconciliation between these presentations, to more fully understand its business. Reconciliations between GAAP and non-GAAP operating results are presented in the accompanying tables of this release.

Use of Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including, among others, statements regarding the anticipated timing of new product launches and announcements, revenue growth in 2019, the benefits of Fluidigm products for research applications, anticipated benefits of contractual relationships, and projected revenues, expenses, and cash flows for the first quarter of 2019. Forward-looking statements are subject to numerous risks and uncertainties that could cause actual results to differ materially from currently anticipated results, including but not limited to challenges inherent in developing, manufacturing, launching, marketing, and selling new products; risks relating to reliance on sales of capital equipment for a significant proportion of revenues in each quarter; potential product performance and quality issues; the possible loss of key employees, customers, or suppliers; intellectual property risks; competition; uncertainties in contractual relationships; Fluidigm research and development, sales, marketing, and distribution plans and capabilities; reduction in research and development spending or changes in budget priorities by customers; interruptions or delays in the supply of components or materials for, or manufacturing of, its products; seasonal variations in customer operations; unanticipated increases in costs or expenses; and risks associated with international operations. Information on these and additional risks and uncertainties and other information affecting Fluidigm's business and operating results as contained in the Fluidigm Annual Report on Form 10-K for the year ended December 31, 2018, and in its other filings with the Securities and Exchange Commission. These forward-looking statements speak only as of the date hereof. Fluidigm disclaims any obligation to update these forward-looking statements except as may be required by law.

About Fluidigm

Fluidigm (NASDAQ:FLDM) is an industry-leading biotechnology tools provider with a vision to improve life through comprehensive health insight. We focus on the most pressing needs in translational and clinical research, including cancer, immunology, and immunotherapy. Using proprietary CyTOF® and microfluidics technologies, we develop, manufacture, and market multi-omic solutions to drive meaningful insights in health and disease, identify biomarkers to inform decisions, and accelerate the development of more effective therapies. Our customers are leading academic, government, pharmaceutical, biotechnology, and plant and animal research laboratories worldwide. Together with them, we strive to increase the quality of life for all. For more information, visit fluidigm.com.
