

## Standard BioTools Inc. Announces Inducement Grants Under Nasdaq Listing Rule 5635(c)(4)

November 22, 2022

SOUTH SAN FRANCISCO, Calif., Nov. 22, 2022 (GLOBE NEWSWIRE) -- Standard BioTools Inc. (Nasdaq:LAB) today announced that the Compensation Committee of its Board of Directors, which is composed entirely of independent directors, granted equity awards effective as of November 20, 2022, under the Standard BioTools Inc. 2022 Inducement Equity Incentive Plan (Plan), as a material inducement to ten individuals entering into employment with Standard BioTools. The equity awards were approved in accordance with Nasdaq Listing Rule 5635(c)(4).

In connection with the individuals entering into employment with Standard BioTools as new employees, none of whom were previously employees or directors of Standard BioTools, the individuals received awards totaling an aggregate of 235,200 restricted stock units (RSU Awards). For each employee receiving an RSU Award, 1/4th of the total number of shares of common stock underlying each RSU Award will vest on November 20, 2023, and 1/16th of the shares will vest every three months thereafter until fully vested; provided, however, that if a vesting date would otherwise fall on a day when the national stock exchange upon which the shares are listed is not open for trading, vesting will occur on the first trading day thereafter. Vesting of the RSU Awards is subject to the employee continuing to be a service provider through each such vesting date, in addition to other terms and conditions of the Plan.

### About Standard BioTools Inc.

Standard BioTools Inc. (Nasdaq:LAB), previously known as Fluidigm Corporation, is driven by a bold purpose – *Unleashing tools to accelerate breakthroughs in human health*. Standard BioTools has an established portfolio of essential, standardized next-generation technologies that help biomedical researchers develop medicines faster and better. As a leading solutions provider, the company provides reliable and repeatable insights in health and disease using its proprietary mass cytometry and microfluidics technologies, which help transform scientific discoveries into better patient outcomes.
